PROJECT DEMO – 5 MINUTES

The video demo can be played at any point during your scheduled presentation time

Introduction

- Be very succinct in the project introduction.
- Use diagrams where possible.
- Don't read from the slides.
- Time is of the essence.
- Get to Implementation and Challenges as quickly as possible.

Discussion and Evaluation

- Did the project meet the goals and objectives?
- Did you get the project requirements, design and implementation right?
- Knowing what you do now, what would you do differently?
- What would you do to improve the project?
- What did you learn from the experience?
